“Drawdown”

The Most Comprehensive Plan Ever
Proposed to Reverse Global Warming
Edited by Paul Hawken

For the first time ever, an international coalition of leading researchers, scientists and policymakers has come together to offer a set of realistic and bold solutions to climate change. All of the techniques described here - some well-known, some you may have never heard of - are economically viable, and communities throughout the world are already enacting them.

So what are we waiting for?

7pm Film Screening

“Closing the Loop”

From director Graham Ehlers Sheldon

"Unless we go to Circular it's game over for the planet. It's game over for society." Closing The Loop is a feature length documentary on the circular (zero-waste) economy, supporting UN Sustainable Development Goal 12 on Responsible Production and Consumption. The film is presented by Prof. Dr. Wayne Visser, Chair in Sustainable Transformation and Professor of Integrated Value at Antwerp Management School. The film ranges across three continents and includes commentary from global experts and centres of excellence.
