“Are We Screwed?”

How a New Generation Is Fighting
to Survive Climate Change

By Geoff Dembicki

The Millennial generation could be first to experience the doomsday impacts of climate change. It's also the last generation able to do something about them. With time ticking down, 31-year-old journalist Geoff Dembicki journeyed to Silicon Valley, Canada's tar sands, Washington, DC, Wall Street and the Paris climate talks to find out if he should hope or despair. What he learned surprised him. This book will forever change how you view the biggest existential challenge of our era and redefine the generation now battling against the odds to solve it.
